19-1165-020: SWISS INSULATED TO IEC C13 POWER CORD BLACK 2M

A moulded Swiss 3 pin earthed 250V 10A plug, approved for Switzerland (SEV) to IEC C13 connector, manufactured at 2 metres using H05VV-F 3x0.75mm cable in black.

The power cord has a molded 3-pin earthed (grounded) plug designed for use in Switzerland. This plug type typically conforms to the Swiss standard (SEV). Rated for 250 volts and 10 amperes. The other end of the power cord features an IEC C13 connector.

The cable itself is made of H05VV-F 3x0.75mm² cable. This specification denotes the type and size of the conductors within the cable. In this case, it's a flexible cable with three conductors (3x0.75mm²) suitable for delivering power to devices.

Plug	Swiss 3 PIN
Equipment end	IEC C13
Length	2m
Colour	Black
Cable size	3 x 0.75 mm
Cable type	H05VV-F
Class	Class 1
Conductors	2P+E 250V
Conductor size	3x0.75mm
Cond colour code	Brown (L), Blue (N), Green/Yellow (E)
Connector approval	IEC C13
Connector type	IEC 60320 C13
Number of conductors	3
Plug approval	IEC60884-1 PIN 4.0
Temperature rating	70C
Voltage rating	250V

FEATURES

- Swiss Insulated to IEC C13 Connector
- Class I powercord
- Swiss moulded plug approved to SEV 1011
- 2P+E -250V
- IEC C13 connector approved to IEC320
- H05VV-F 3X0.75mm
- ROHS compliant
